- Motion approved

Buildings and Grounds Report

12/1/20 Vestry meeting

1. Gus did some wall repair work in the infant room.
2. Exterior flood lights are having some issues. Terra Electric is working on it this week
3. Ark leak above the window where all the work was done by Gus. Good news is that the drain which was installed kept the water from coming in through the wall and floor. This leak might have been due to the window well guard needing to be sealed. The leak occurred during the deluge on Monday
4. Sheehan replaced the flex pipes for the small water heater in the attic with hard pipes after one of the flex pipes sprung a pin-hole leak.
5. No word yet regarding the stained-glass window status. I sent a message to the company a couple of weeks ago. Will follow up this week. They are supposed to notify us when the next installment is due.
